

# FIELD CLINICAL SPECIALIST- ELECTROPHYSIOLOGY

*Posted on 25 november, 2025*

**Company Name** Boston Scientific

**Location** Stockholm

## Job Description

### Transforming Cardiac Care. Transforming Lives.

At Boston Scientific, we improve the lives of **over 30 million patients each year** through groundbreaking medical innovations. Now, we're taking bold steps in **Electrophysiology (EP)** – and we want you to be part of the journey.

With **FaraPulse™**, **Pulse Field Ablation**, **FaraView™**, **OPAL™ 3D Mapping** and an innovative pipeline, we are shaping the future of cardiac care. This is your chance to make a real impact.

### Your Role – Field Clinical Specialist (EP)

As a **Field Clinical Specialist**, you are a clinical cornerstone of the EP team. You will support physicians and hospital staff during procedures, educate teams on best practices, and drive adoption of our cutting-edge technologies. Your work will directly influence patient outcomes and the success of our EP solutions.

### What You Will Do

- Provide in-depth clinical and technical support during EP procedures using Boston Scientific's full EP portfolio.
- Train and educate physicians, nurses, and technicians on product use and best practices.
- Collaborate with sales teams to identify opportunities and support business growth.
- Troubleshoot and optimize system performance in real-time during procedures.
- Build strong relationships with EP labs, hospital administrators, and key decision-makers.
- Support hardware/software upgrades and coordinate with European technical teams.
- **In the field** 2–4 days/week, approx 1 overnight stay per week, occasional Nordic support

### Who You Are

You are passionate about **cardiology**, thrive in a clinical environment, and enjoy working with technologies that truly make a difference.

### **We Are Looking For Someone Who Has:**

- Clinical experience in for example **Electrophysiology (EP)**, **Cardiac Rhythm Management (CRM)** or **Electrocardiogram (ECG)** or similar.
- A degree in Biomedical Sciences, Nursing, Medical engineering, or related healthcare field.
- Strong communication skills and the ability to explain complex clinical concepts clearly.
- A collaborative mindset, adaptable approach, and ability to thrive in a fast-paced environment.
- Willingness to travel and work around hospital schedules.
- Fluency in Swedish and English.

### **Why Boston Scientific?**

- Work with revolutionary EP technologies that are changing lives.
- Join a passionate, high-performing team with a clear mission.
- Enjoy career development opportunities in clinical, commercial, or technical paths.
- Be part of a global leader in medical innovation with a strong commitment to patients and employees alike.

### **Are You Ready to Shape the Future of Cardiac Care?**

**Apply now and become a driving force in the EP revolution!**

**In this recruitment Boston Scientific is collaborating with Moveup Consulting.**

**For questions regarding the position, please contact recruitment consultant Daniel Kremer  
0733-872724**

**Please send your application in the form of a CV and a Cover Letter to [daniel.kremer@moveup.se](mailto:daniel.kremer@moveup.se)**

**We review applications continuously!**

***By submitting your application, you also give your consent to storing your personal information, including a CV & Cover letter, and that we have the right to share this information with third parties (our client). You can withdraw your consent at any time.***
