

FIELD TECHNICAL ENGINEER

Posted on 22 december, 2021

Company Name Abbott

Location Stockholm

Job Description

We are looking for a **Field Technical Engineer** to join our Abbott Electrophysiology Division in Sweden. In the role of Field Technical Engineer, you will be responsible to provide expert technical support and advise to our clients. This position's primary function is to attend implants, follow-ups and support any issues related to high voltage and low voltage stimulation devices.

Responsibilities

- Providing expert clinical consultation, teaching and support on the use of all products and their appropriate application in the clinical setting.
- Maintain up to date technical knowledge of current and new therapies and technologies within the therapy area, including competitor devices, as well as a general understanding of the dynamics of the country healthcare market.
- Providing technical support to the EP salesforce.
- Conduct product presentations and perform stand duty at exhibitions when requested, responding to technical questions that might be raised by EMEA or customers.

Qualifications

University degree within biomedical engineering or other related scientific field

Ideally electrophysiology/cardiac rhythm management or equivalent clinical experience.

Cardiac anatomy and physiology knowledge would be considered as a strong asset.

Very good command of English and Swedish (both written and spoken)

Strong problem-solving capabilities and customer-focus.

Willingness to travel 75% of the time and ability to work autonomously.

Strong communication skills, both written and verbal.

What can we offer you?

Abbott provides a varied, challenging and international position in a dynamic and pleasant working environment. In our organization, you can count on excellent primary and secondary benefits, a positive working atmosphere, a personal growth plan, extensive training opportunities and good career perspective. We are in the business of advancement, both in health solutions and in the lives and careers of our employees. Our work across the world and in many areas of healthcare provides a rich environment for our employees to explore career paths, interests and opportunities.

How to apply?

This recruitment is handled by our recruitment partner, Moveup Consulting AB. To apply, please send your CV and a cover letter to richard.etz@moveup.se
