GLOBAL CLINICAL DEVELOPMENT MANAGER & EVIDENCE STRATEGIST

Posted on 28 februari, 2020

Company Name Mölnlycke

Location Göteborg

Job Description

Does helping to make life better for millions of people motivate you?

If the answer is yes, you think just like us. In our daily work, we create unique medical solutions to improve quality of life. We enjoy what we do because it makes a difference in people's lives – for real. Although we're a global company, we're still small enough for you to make your mark. Our leaders are accessible and trust us to make the right decisions. As a Mölnlycke employee, you'll thrive when you take on the responsibility.

Global Clinical Development Manager & Evidence Strategist

As a Global Clinical Development Manager & Evidence Strategist you are accountable for dedicated Market Access and Evidence Plans, a strategic document which shall take national and international guidelines into consideration as well as the scientific, clinical and economic perspective. The strategy will have a high economic impact and shall be of a competitive nature. You will also be responsible for the synopsis to the Clinical Investigation Plans which sets the design of the clinical studies

You also act as projects sounding board, providing a high level of support regarding clinical evidence.

Your role

- Responsible for setting up Clinical evidence plans for new products/solutions/projects and updating Clinical Evidence Plans continuously during products life-cycle together with applicable functions (eg internally Marketing lead, HE, reimbursement, clinical evaluation manager, Regions etc. and externally regulatory bodies, payers, providers) depending on the business gate.
- Responsible for the quality of Clinical Investigations Plans for various Mölnlycke sponsored study formats (interventional, observational studies etc).

- Contribute actively to the development of the department/group.
- Close interaction and networking outside the group to maintain a broad network and act as an ambassador of the Clinical Evidence Team.
- Provide training and support to applicable functions to be involved in the work of the Clinical Evidence plans
- Be responsible for the design of the Clinical investigation plan according to the output of the Clinical evidence plan. Synopsis to be prepared.
- Accountable for decisions regarding Investigator Initiated Studies as requested by the Evidence Committee

Qualifications

- University degree (M. Sc medical or science degree or PhD)
- Approx. 10 years R&D, RA, marketing and/or clinical research experience from Medical Devices, Pharmaceutical or from a CRO giving a seniority level of experience
- Solid training in clinical research methodology and/or biostatistics
- Good teamworking- and networking skills
- Knowledge of wound care and/or or surgical products is considered meritful
- Excellent English written and spoken

To be successful you have a high degree of customer focus and a business-oriented mindset. It is essential having a good ability to structure and prioritize, as you will be involved in several cross-functional projects at various stages of development. Communication- and presentation skills are essential.

This is a full-time permanent position based in Gothenburg.

We look forward to receiving your application. Please send your CV and cover letter to katarina.wanderydz@molnlycke.com

"By submitting your application you also give your consent to storing your personal information, including CV & Cover letter, and that we own the right to share this information with third parties (our client). You can withdraw the consent at any time. "

Closing date for applications is **10 August**.

Om företag

Mölnlycke is a world-leading medical solutions company. We design and supply solutions to enhance performance at every point of care – from the hospital to the home.

We specialise in:

- *Wound management: including dressings such as Mepilex® and Mepitel®*
- *Preventing pressure ulcers: with Mepilex® Border used prophylactically and devices to help turn and re-position patients*
- *Surgical solutions: including Mölnlycke trays, HiBi® antiseptics and Biogel® surgical gloves*

Mölnlycke was founded in 1849. Nowadays our solutions are available in around 100 countries; we're the number one global provider of advanced wound care and single-use surgical products; and we're Europe's largest provider of customised trays. Our headquarters are in Gothenburg, Sweden and we have about 7500 employees around the world.
