

HEAD OF OPERATIONS

Posted on 21 februari, 2025

Company Name Ortoma AB

Location Göteborg

Job Description

Are you interested in leading the operational initiatives in a dynamic and innovative company at the forefront of advanced AI-based surgical systems? Are you passionate about driving growth, supply chain management, and ensuring regulatory compliance? If these are things that get you motivated, then Ortoma AB has an exciting opportunity for you! Join us as the Head of Operation and shape the future of orthopaedic surgical procedures with our groundbreaking products to improve the patient's quality of life.

Head of Operations

As the Head of Operations, you will play a key role in driving the operational excellence of our company. Reporting directly to the CEO, you will be responsible for overseeing all aspects of Operations (Supply chain management, Warehousing, Procurement, Supplier Development/Supplier Quality, Production planning and Logistics).

Your main responsibilities will include:

Strategic vision: Develop and implement a strategic vision for operations that aligns with Ortomas overall goals and objectives

Supply Chain Management: Optimize supply chain operations, and manage inventory levels to meet customer demand

Regulatory Compliance: Ensure compliance with all relevant regulations and standards, working closely with QA/RA team members to maintain a high level of quality and safety

Team Leadership: Build and lead a high-performing operations team, providing guidance, support, and professional development opportunities

Performance Monitoring: Establish and track key KPIs to measure the effectiveness of operational processes, implementing improvements as needed

Stakeholder management: Establish and nurture strategic relationships with suppliers, customers and other internal/external stakeholders

Qualifications and Experience

- Solid experience in Operations (Contract manufacturing, Supply Chain management, logistics, procurement). Preferably within the Medtech industry
- Strong project management skills with experience in implementing process improvements and managing change
- Experience in managing operations in a global context, dealing with diverse stakeholders and cultures
- Excellent communication and interpersonal skills
- Fluent in written and spoken English
- Strong analytical and problem-solving abilities, with a focus on data-driven decision-making
- Proven track record of successfully leading and developing teams
- A degree in engineering, business or a related field is preferred

At Ortoma, we offer a dynamic and inclusive work environment that fosters growth and innovation. As the Head of Operations, you will have the opportunity to make a significant impact on our company's success and shape the future. If you are a highly motivated and result-driven individual with a passion for operational excellence, we would love to hear from you.

To apply

In this recruitment we collaborate with Moveup Consulting AB. If you think you are the right candidate for this job, please send your application to tom.bergqvist@moveup.se For more information about Ortoma AB, and the role please contact Tom at 0733-872722

By submitting your application, you also give your consent to storing your personal information, including CV & Cover letter, and that we own the right to share this information with third parties (our client). You can withdraw your consent at any time.

Om företag

Ortoma AB, founded in 2001 and based in Gothenburg, Sweden, specializes in developing advanced surgical systems for planning and positioning implants in hip, knee, and spinal surgeries. Their flagship product, the Ortoma Treatment Solution (OTS), utilizes AI-driven software to enhance surgical accuracy, efficiency, and patient outcomes. In October 2023, Ortoma entered a strategic alliance with DePuy Synthes, a division of Johnson & Johnson MedTech, to integrate technologies and expand into key markets such as the US and Europe.

Controllable Treatment Solutions with Cutting Edge Technology

Orthopaedic surgical procedures involve several challenging steps and many technical components. Ortoma's goal is to improve patients' lives by developing efficient, innovative products to support surgeons so they can provide the best possible outcome for their patients while keeping them in control of the entire process.

As a True Pioneer

The connection between art, science, and medicine exists since the beginning of time and curiosity is its driving force. Ortoma believes that improving medical science comes with using cutting-edge technology. That philosophy is what inspired Ortoma to develop products to improve the patient's quality of life. We focus on developing technology solutions for orthopaedics procedures. In 2011, Ortoma initiated the development of a 3D pre-operative planning platform for orthopaedics procedures with hip replacement surgery as the first priority.
