

MEDICAL SCIENCE LIAISON (MSL) INFECTION NORDIC

Posted on 26 mars, 2024

Company Name bioMérieux

Location Västra Götaland

Job Description

Come and join a family-owned global company with a long-term vision, and a human-centered culture.

What will be your role at bioMerieux?

Do you want to support the scientific medical strategy of specific diagnostic solutions, providing up to date medical information to critical care and emergency department physicians?

- Are you passionate about scientific communication and medical education to the healthcare community and engaging in scientific exchange and managing key stakeholders (KOLs)? If this sounds like you then you could be our next Medical Scientific Liaison, accountable of our syndromic solutions and blood culture/sepsis within Nordics Countries (Sweden, Denmark, Finland and Norway).
- Reporting to the VP of Benelux Nordics, you will work closely with our commercial team to provide operational and medical support as well as identify, recruit, leverage and maintain relationships with critical and acute care Key Opinion Leaders (KOLs).
- Your goal will be to develop the scientific image of bioMérieux as a leader in the diagnosis of infectious diseases. You will develop creative and innovative tactics for addressing barriers to clinical adoption within targeted hospitals and assist with management of clinical trials.
- You will work closely with your colleague based in Brussels, and you will ideally be based in Gothenburg.

About you

- You will have infectious diseases knowledge whether as an intensive care emergency doctor, nurse or clinical microbiologist or have a pharmacy degree with professional experience in an IVD industry.
- Previous MSL experience is strongly desirable but not essential.

- A PhD or Pharmacy degree is also desirable.
- You must possess strong communication skills and presentation skills, along with extensive interpersonal skills to work in cross functional teams and be business and customer orientated.
- This is a field-based role travelling to meet customers and internal teams.

To apply

We are looking forward to receiving your application as soon as possible. For more information about bioMérieux, the role and to apply, please contact Richard Etz, Moveup Consulting AB, 0733-87 27 21.

Applications must be sent by e-mail to: richard.etz@moveup.se

By submitting your application, you also give your consent to storing your personal information, including CV & Cover letter, and that we own the right to share this information with third parties (our client). You can withdraw the consent at any time.

Om företag

A family-owned company, **bioMérieux** has grown to become a world leader in the field of in vitro diagnostics. For 60 years and across the world, we have imagined and developed innovative diagnostics solutions to improve public health. Today, our teams are spread across 45 countries and serve 160 countries with the support of a large distribution network.
