

# QA ENGINEER - PRODUCT DEVELOPMENT

*Posted on 28 mars, 2025*

**Company Name** Evercare Medical

**Location** Göteborg

## Job Description

*Welcome to Europe's leading healthcare partner. Healthcare providers across Europe turn to us to better meet their patients' needs. We help them improve patient outcomes, lower the total cost of care, and achieve superior environmental and CSR results. Are you passionate about Product Development, Quality and Regulatory Compliance? Evercare Medical is looking for a **QA Engineer – Product Development** to drive innovation, quality, and compliance in our growing product portfolio.*

## QA Engineer - Product Development

### About the Role

As a member of our QA/RA/Product Development Team, you will play an important role in new product initiatives and product modifications to meet customer, regulatory, and quality requirements. Reporting to the Director of Quality Assurance & Regulatory Affairs, you make sure our products comply with international medical devices standards while maintaining a competitive edge in the market.

## Key Responsibilities

- Drive new product development projects and product changes, ensuring proper documentation and compliance
- Act as the Regulatory, Technical, and Quality expert for products where Evercare Medical acts as the Legal Manufacturer
- Support Commercial Managers in developing competitively priced products without compromising quality
- Work closely with Supplier Quality Engineers to ensure the highest quality standards from our suppliers
- Develop and maintain risk assessment and technical documentation for CE marking and

regulatory compliance

- Participate in external audits (e.g., Notified Bodies, test institutes) to ensure ongoing compliance

## Who You Are

Education: Bachelor's degree in engineering, Life sciences, or a related field.

Experience: At least 2 - 3 years in product development, manufacturing, or quality assurance, in the medical device industry.

Knowledge: Familiarity with medical devices regulations and quality standards (ISO, CE marking, etc.) is preferred.

Evercare Medical is ISO 14001 certified and prioritize green product development and sustainability. Therefore, it would be an advantage if you have some experiences or a strong interest in that field.

## Skills & Traits

Detail-oriented and quality-focused

Solution-oriented mindset with a proactive approach

Strong collaboration and communication skills

Passionate about continuous learning and improvement

Project Management skills

Written and spoken English

## To apply!

Apply today! Send your resume and cover letter to Tom Bergqvist, Moveup Consulting AB [tom.bergqvist@moveup.se](mailto:tom.bergqvist@moveup.se).

*By submitting your application, you also give your consent to storing your personal information, including a CV & Cover letter, and that we have the right to share this information with third parties (our client). You can withdraw your consent at any time.*

## Om företag

### Evercare Medical: Caring for the Future

At Evercare Medical, we are dedicated to making a positive difference in the European healthcare sector. As part of the Asker Healthcare Group, we share a commitment to meeting customer needs, undertaking extensive quality control, and investing in efforts to reduce our impact on the environment, all in the name of improved patient outcomes.

### Our Mission and Values

Our mission is to support the healthcare sector by providing a comprehensive offering of medical supplies to healthcare providers and patients. We aim to offer a best-in-class portfolio in terms of quality and sustainability, including our brands Embra®, evercare®, and SELEFA®.

- **Embra®:** Derived from the word "embrace," this brand stands for a clear commitment to both environmental and social sustainability. Embra® products focus on lowering environmental impact while delivering quality and performance for patients and caregivers.
- **evercare®:** This premium product range includes examination gloves, surgical gowns and drapes, wound care, infusion, and injection solutions. Driven by continuous development and innovation, evercare® aims to treat patients with the best possible clinical solutions.
- **SELEFA®:** Providing value for money, SELEFA® offers a wide range of affordable products, including examination gloves, paper and plastic consumables, non-woven products, bandages, and gauze.

### Quality and Sustainability

We operate under a quality management system with established working methods and processes according to the Medical Device Regulation (MDR). Our products undergo comprehensive quality control processes, including regular inspections of production facilities and randomized audits.

### Global Reach

Evercare Medical operates two business units: Surgery, Wound & Hospital Care, and Gloves & Protection. We currently serve 17 countries across Europe and are headquartered in Stockholm,

Sweden.

## **Innovation and Responsibility**

We are powered by a commitment to continuous improvement and innovation. Our suppliers and manufacturers are carefully selected to ensure they meet our high standards for quality, environmental care, and social responsibility.

## **Join Us**

By joining Evercare Medical, you will be part of a team that is dedicated to improving patient outcomes and reducing the total cost of care. We are looking for passionate individuals who share our values and commitment to excellence.
