

QA/RA MANAGER

Posted on 30 november, 2021

Company Name Osstell

Location Gothenburg

Job Description

Join our mission to help clinicians provide each patient with optimal time to teeth!

As QA/RA Manager you will be working in an international environment, with a professional and highly competent team, supported by world leading partners.

You are committed to quality and regulations and want to ensure that the company guidelines and overall decisions are followed.

You will ensure that Osstell is perceived as a serious, responsible and conscientious company in all external contacts.

Your responsibility include but is not limited to:

- Ensure compliance with applicable laws and regulations.
- Ensure that products are registered in relevant countries
- Manage audits, and being the main point of contact for the Notified Body
- Manage supplier audits
- Ensure the organization's awareness of the quality management system and applicable regulatory requirements
- Manage the CAPA handling processes
- Perform the role of a Person Responsible for Regulatory Compliance (PRRC)

Qualifications

- Relevant experience from working with quality assurance and regulatory affairs within MedTech
- Demonstrated knowledge of relevant regulations, international standards and guidelines
- Excellent in English, both written and verbally, is a requirement
- Communication in Swedish both verbal and in writing

It is an advantage if you have experience with project management. Furthermore, to have a basic understanding of electronics and/or mechanics.

Why Osstell?

Osstell has a long-term commitment to our customers, employees and partners. We are in it for the long run. Our core values states what we always should focus on; Customer value, Entrepreneurship, Openness and Accountability. We can offer the advantages of being a smaller company with high individual impact, together with the stability of being supported and owned by the W&H Group. Your colleagues are all highly skilled professionals with a profound industry knowledge. Joining Osstell you will be part of a company that has a clear strategy for growth on a global market. We are headquartered in Gothenburg, with a centrally located office.

Om företag

Osstell is the global leader in implant stability measurement and osseointegration progress monitoring. Osstell was formed in 1999 to commercialize an invention using Resonance Frequency Analysis (RFA) to determine the clinical status of a dental implant. Osstell's proprietary and patented technology helps its customers, dentists around the world, to make dental implant treatments safer, and to increase patient confidence and comfort, by measuring the stability of implants objectively and non-invasively using the Osstell ISQ scale (Implant Stability Quotient). More than 1200 scientific publications confirm the benefits of the technology, its clinical value, and the use of the Osstell ISQ scale for dentists in their daily practices. Osstell is headquartered in Gothenburg, Sweden – the birthplace of dental implants. Since February 2018, Osstell is part of the W&H Group.
