

SCIENTIFIC RELATIONS MANAGER

Posted on 20 april, 2026

Company Name Kyowa Kirin International

Location Stockholm/ Central Sweden

Job Description

WE PUSH THE BOUNDARIES OF MEDICINE

LEAPING FORWARD TO MAKE PEOPLE SMILE

Job Purpose

Medical Affairs, non-promotional role using deep scientific expertise to proactively manage the scientific relationships between Kyowa Kirin and selected therapy areas experts and academics. Close alignment with the Medical Director for the therapy area, and the cross functional brand team. A focus on working collaboratively with HCPs to identify opportunities advancing clinical practice to improve patient outcomes. Can be remote / field or office based as work will be delivered through hybrid mix of virtual, desk and face to face with an expectation of regular travel to meet with HCPs and office working to attend meetings with cross functional team members.

Key Responsibilities

- Maintain deep level of scientific knowledge on the full dataset of assigned Kyowa Kirin therapy areas and relevant treatment options to enable peer to peer level scientific exchange
- Foster & develop selected National Key External Experts (KEEs) relationships (e.g. key academics)
- Maintain appropriate knowledge levels of the Patient Journey Manager team, on latest science and publications by the delivery of internal, therapy area and on-label product training
- Capture and share in-field insights with Cluster, regional and global colleagues
- Play role in initiating and delivering innovative medical activities (including digital)
- Collaborate with the Medical Director to input into the Cluster and regional medical plan
- Creation of medical material
- Demonstrate a deep understanding of health policy, rare disease and the pharmaceutical industry environment
- Attend selected international and local medical conferences

- Support Corporate Affairs with Patient Organisation collaborations where required
- Adhere to all company and regulatory compliance policies in word and in spirit as well as to any applicable laws, codes, or guidelines

Position Requirements

- Scientific background (education or previous experience)
- Experience (of field role) in pharmaceutical industry
- Excellent Swedish required as well as good English
- Digital experience/expertise (Cx/Px strategy, Omnichannel implementation and Virtual engagement, email, webinar, Zoom/Teams)
- Extensive knowledge of local, regional, and national health systems and care delivery processes
- Travelling in territory – expected on a weekly basis
- Driving - must hold valid driving license
