SENIOR DEVELOPER

Posted on 21 februari, 2020

Company Name Synkzone

Location Göteborg

Job Description

Synkzone is a Swedish start-up company that provides high quality storage and collaboration services designed to meet enterprise requirements. Our core product, Synkzone, is a professional tool for sharing, storing, and collaborating with files for enterprises and projects. Synkzone meets the highest standards of security based on "Zero knowledge", and aims to help enterprises to regain control of their data.

Expanding our business rapidly, we are now looking for a new colleague to join our technical team in Göteborg.

Senior Developer

We are now recruiting a senior developer to help us in our growth journey and to speed up the development and launch of new products and features. The talent we are looking for isn't someone one-dimensional, focusing only on one or a few things or technologies. Rather, you feel quite comfortable in many different areas such as;

- Java
- Windows, macOS, Linux
- Information security technologies

- Network technology
- UX/UI – design
- Android & iOS app development

With high ambitions and a really strong opportunity in the market of information security we offer you a challenging work environment with a great potential for career development. We provide you an opportunity to work both independently and together with senior colleagues. Your daily work will be a challenging mix of development, test, IT operations, support and training.

And by the way – senior, for us, doesn't mean you have worked since the Stone Age.

To apply or to know more about our company and this open position, please contact our recruitment partner Moveup Consulting AB.

Tom Bergvist at tom.bergqvist@moveup.se or Katarina Wanderydz at katarina.wanderydz@moveup.se

By submitting your application you also consent to us storing your personal data, including CV & personal letter and that we have the right to share this information with third parties (our client). You can revoke the consent whenever you want.

Om företag

SYNKZONE
TRULY SECURE, TRULY FLEXIBLE

Synkzone is a Swedish start-up company that provides high quality storage and collaboration services designed to meet enterprise requirements. Our core product, Synkzone, is a professional tool for sharing, storing, and collaborating with files for enterprises and projects. Synkzone meets the highest standards of security based on "Zero knowledge", and aims to help enterprises to regain control of their data.

Synkzone combines the flexibility, accessibility and ease of use of cloud storage with the control of the traditional file server. Synkzone can function both as a complete file management system and as a collaboration and project support tool.

Our key features:

- Security
- Flexibility

- Collaboration
